INTRODUCTION

MetaReflect, launched in February 2022, is the fastest growing cryptocurrency of its kind, automatically rewarding holders in Binance Pegged USD (\$BUSD), a regulated, stablecoin, pegged 1-1 with the US dollar.

It is a decentralized platform that bridges the gap between crypto and fiat currencies and brings the benefits of the crypto world to everyday people. Based on the Binance Smart Chain, it has up to 10x quicker block speeds and lower gas fees compared to many projects competing in this space.

ABSTRACT

Metareflect is a front runner among all cryptocurrencies. With its anti-Whale system, Metareflect discourages Whale sells by limiting any sell amount to a maximum of 0.125% of the circulating supply. Holders of Metareflect get rewarded in Binance Pegged USD. With every transaction, a small percentage of tokens are automatically transferred to the PancakeSwap Liquidity Pool.

MetaReflect also maintains a BuyBack reserve from where the tokens are converted into Binance Coin (\$BNB) and securely locked and stored in the MetaReflect contract. These BNB are then used for strategic BuyBack & Burn – the contract Buys MetaReflect, creating volume, rewards, & positive price action, then sends those tokens to the Burn address – removing them permanently from circulation, including rewards eligibility. This last step means holders of \$MRF continuously receive a higher overall share of rewards distributed and circulating supply reduces overtime.

OUR MISSION

Our Mission is to change the way users interact with Defi through a suite of innovative products and services focusing on the Metaverse and exploring new opportunities for growth. In addition to being an integrated passive income ecosystem.

OUR VISION

Our Vision is to become the #1 Defi Passive-Income platform for investors with our multi-utility ecosystem.

OUR VALUES

TRANSPARENCY

The team behind MetaReflect consist of a group of competent professionals in the field of finance, blockchain and marketing. The team are KYC verified, and communicate directly with the community via regular AMAs and chats on YouTube, Telegram and Discord.

LONGEVITY

MetaReflect is here to stay! 2022 holds immense opportunity for MetaReflect investors. With the upcoming launch of a suite of exciting utilities, a strong and experienced team, we aim to grow into one of the world's top cryptos in 2022 and beyond.

COMMUNITY

We believe in the power of the communities we create and serve, we are committed to building a strong, healthy community of investors/holders through continuously engaging our communities with the future plans of MetaReflect.

INTEGRITY

Integrity creates trust. it's the constant choice to infuse every action with honesty, fairness, and respect for investors and team members alike.

INNOVATION

Innovation motivates action: to take risks, encourage curiosity and new ideas, learn from mistakes, and constantly strive to exceed expectations. Through innovation, we generate solutions for our investors and raise the bar — both within our workplace and throughout the Defi space.

UTILITIES

dApp and Rewards Dashboard

The MetaReflect Distributed Applications (dApp) Dashboard, is constantly being updated and enhanced through community participation and feedback. It currently consists of a Swap exchange with a user-friendly design and the ability to see rewards produced in real-time. The Ecosystem has unlimited potential and will continue to build and develop over time.

Staking & LP Farming

By using a unique set of smart contracts for Staking Pools, MetaReflect will be able to move part of liquidity to the Partnered Tokens by purchasing them on specific contract interactions, thus increasing the value of the Partnered Tokens. Participants in the Pool will receive tokens in exchange for their contributions to the Pool

UTILITIES

NFT MARKETPLACE

Users can purchase and sell NFTs on the platform. This creates an unusually competitive market for buying NFTs at a discount to their standard market value. Additionally, the marketplace features a minting tool that enables users to create their own NFTs using images, videos, and other data.

P2E GAME

Enter a fantasy realm, built on BSC, focused on the Metaverse and earn daily login rewards, NFTs and crypto whilst battling against other players, completing missions, and defeating epic adversaries! NFTs earned in game can also be traded on our NTF marketplace, or benefit from a rise in value within the game's own economy.

UTILITIES

MRF WALLET

Buy, Sell and Swap your crypto on a wallet fully designed for the latest revolutionary rewards tokens, along with traditional crypto investing. Fully integrated, multi reward-options tokenomics.

PROJECT WALHALLA

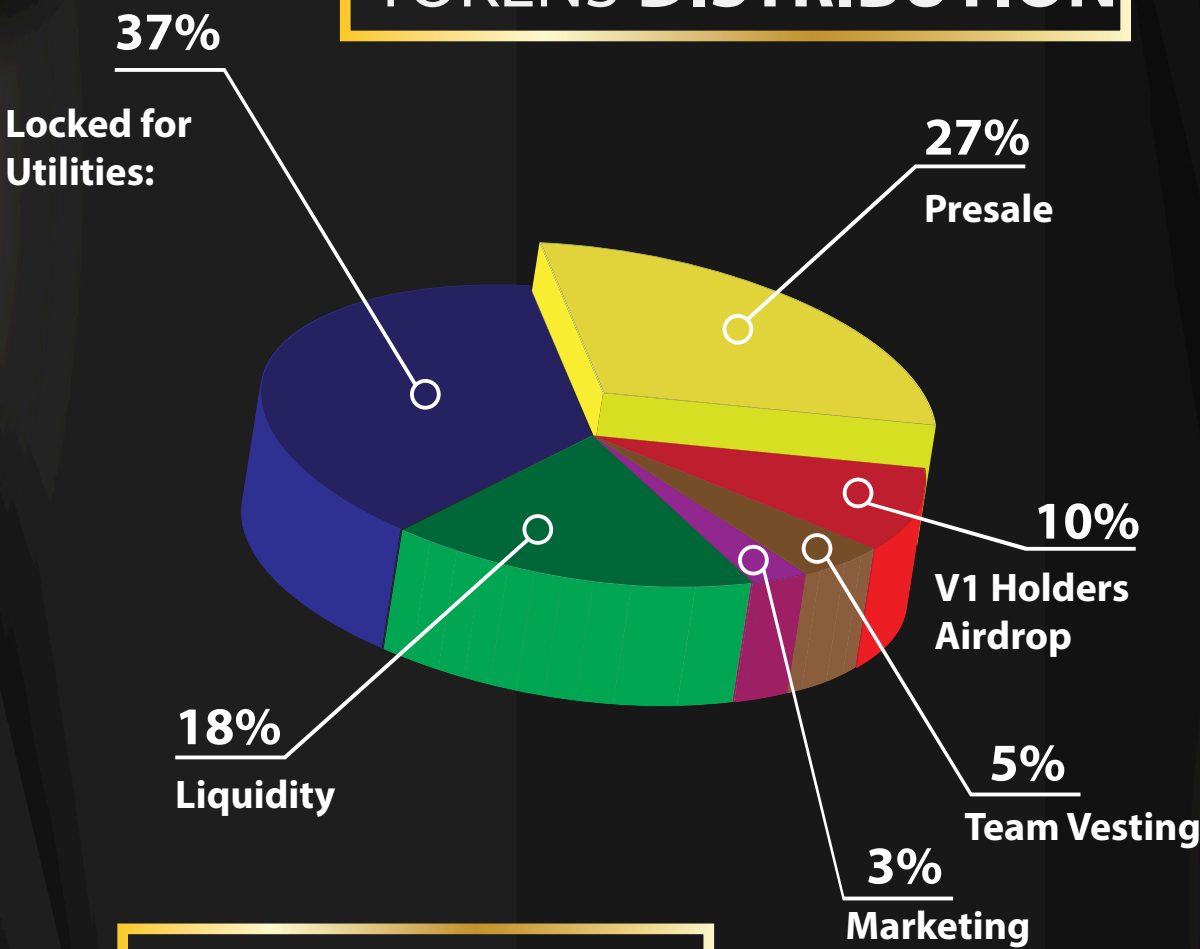

Project **Walhalla** is our flagship project, an innovative project that differentiates MetaReflect than other reflection tokens, Project **Walhalla** is a revenue-generating innovation that will support MetaReflect through multiple ways.

A percentage of the profits generated from project **Walhalla** will be used to buy MetaReflect Tokens and Burn them, increasing the price while reducing the circulating supply and increasing the reflections shares for holders. While the specifics of the project will be announced in Q2, the information above should give an idea of how it will be beneficial to MetaReflects and the holders

TOKENOMICS

TOKENS DISTRIBUTION

TAX ALLOCATION

- 8% BUSD REFLECTIONS
- 4% MARKETING
- 1% LIQUIDITY POOL
- 1% BUYBACK & BURN

TOKENOMICS

BUSD REWARDS

All holders of MRF will earn a 8% Binance (BUSD) reflection from every BUY/SELL Transaction. This percentage will increase as the project reaches certain milestones, the total tax will remain the same, the increase in reflections tax will be reallocated from the marketing tax.

ANTI WHALE

As with most newly launched tokens we expect a large increase followed by a drop... these are the measures we are putting in place to lessen that initial launch spike and drop. No wallet will be allowed to purchase more than 2 BNB during the presale. Additionally, Our Anti-Whale function ensures that No sale amounts higher than 0.25% of the total supply are possible at once. The Anti-whale won't necessarily stop Whales from selling but having a maximum limit works as an indicator when a Whale is trying to sell their tokens and avoids price manipulations.

TOKENOMICS

ANTI RUG

The anti-rug guarantee is a 2 year long vesting cycle which allows the developers to get paid out in cycles and eliminate the risk of foul play or "rugging". The founders of MRF understand the importance of transparency and checks and balances to ensure that we're never in too much control. In order to be transparent we have allocated 5% of tokens which will be released over the course of 24 months. This vesting period will begin after launch and will reoccur every 30 days. By extending the vesting to two years the team will never receive more than .2% of total tokens. We are committed to the longevity of MetaReflect (MRF) and will make any changes the community deems necessary.

MARKETING FEE

As with most newly launched tokens, Marketing is vital in the initial and long term growth of any project, as projects grow and the community becomes larger, projects can be less dependent on paid advertising. Word of mouth and community content should help growing the project further. Therefore, tax structure for MetaReflect will reallocate marketing tax towards reflections as the project reaches certain milestones the milestones are chosen to be a substitute to make up for the reallocated marketing fee to ensure continuous growth.

ROADMAP

PHASE 01

Q4 2021

- Assembly of Project Team
- Study and Research existing BUSD Reflection Tokens
- Review strengths and weaknesses of these projects
- Identify Misison & Vision of the project
- Identify purpose, goals, milestones of the project
- Finalize Project name
- Finalize Logo design
- Initial contract Development
- Initial website Development
- Setup Social Media Accounts
- Reach out to Marketing Partners, advisors, developers

PHASE 02

Q1 2022

- Finalize website development
- Initial Utilities development & testing
- Finalize Contract Development & Deploy Contract
- Project Team KYC
- Contract Audit
- Whitelist Sweeps
- Public Presale Announcement
- Initial Marketing (Press, Youtube Influencers)
- Schedule and host AMAs
- DEX Listing on PancakeSwap
- CoinMarketCap & CoinGecko Listing

PHASE 03

Q1 2022

- Launch dApp, Rewards Dashboard & MRFSwap
- HUGE Partnership Announcement
- Big Marketing Push
- Initial Staking Pools Release
- LP Farming Pools Release
- Certik Audit
- Partnership with other projects (Staking)
- Project Walhalla initial development

PHASE 04

Q2 2022

- NFT Collection Release
- Project Walhalla Teaser
- Implement DAO for Rotating Staking pools voting
- NFT Marketplace
- P2E Game Initial Development
- CEX Listing
- First Tax reallocation from Marketing to Reflections
- Mainstream Media Marketing Campaign
- ... More in Progress

Q3 2022

METAREFLECT

Join us into the metaverse as we bring life to Defi. Our dedicated Team is focused on building the ultimate Passive Income platform Through a bundle of utilities focused on building a sustainable eco-system that generates passive income to all holders of \$MRF.

Thank You
